Sommario/riassunto	<p>For the past six years, Boston crime reporter Sarina Mason has shared an amiable, if somewhat flirtatious relationship with sexy-as-sin city detective Kit Holden. But three months ago, after an attack on the precinct which involved Kit shielding her body with his own, Sarina knew that their professional working friendship was developing into something more, something dangerous for both of their hard-earned careers, so she turned tail, avoiding the precinct and the handsome, distracting detective inside. When a copycat serial killer hits the city sideways, however, Sarina knows she has to get the story, and with it, see Kit again. What starts as the news story of her career, soon becomes more personal as Sarina discovers an important clue, effectively making herself the killer's next target. Kit has sworn he'll stop at nothing to keep her safe, but as she gets mixed up in history, danger, and her own wild emotions, Sarina knows that her relationship with Kit will be forever changed, if she gets out alive.</p>
