Nota di contenuto	Part A. Background -- Chapter 1. Understanding the European financial system -- Part B. The origins of the financial crisis -- Chapter 2. Underlying causes of the crisis: the build-up of risks and imbalances -- Chapter 3. Triggers -- Acronyms -- References -- Index.
Sommario/riassunto	Explores the factors leading up to the recent global financial and economic crisis, how the crisis unfolded, and the response of European and national authorities. The book describes the rationale behind the measures undertaken to mitigate the consequences of the recession and to ensure that a similar situation does not happen again in the future. In the wake of the crisis, various major changes continue to significantly affect the life and social organization of Europeans. For instance, a new ESM with a size financially comparable to that of the IMF was created; similarly, the reforms in economic governance imply much more intrusive participation of European countries in each other's macroeconomic policies. Moreover, the organization, regulation, and supervision of the financial sector have been drastically revamped. The decisions taken by European and national authorities affect the daily lives of hundreds of millions of European citizens and countless more around the globe. An insightful read for anyone interested in understanding the topic and its effect on their lives, the book primarily addresses undergraduate students in their final year and graduate

students in fields such as economics, finance, and political science. The main messages are explained through examples and charts. This first volume provides an overview of structure of the European financial system and of the origins of the financial crisis. The second volume focuses on the response given by national and European authorities.

Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di contenuto	Contents; Figures; Acknowledgments; Introduction; Chapter 1: Project Definition and Planning; Chapter 2:Committee Orientation and Data Collection Organization; Chapter 3: Resources Required and Allocated to Support the Activity; Chapter 4: Gap Analysis and Recommendations; Chapter 5: Prepare Recommendations and Present Reports; Tool Kits; Workforms; Index
Sommario/riassunto	With examples ranging from small to large small public libraries, this volume is equally valuable for school, special, and academic librarians who are faced with similar space repurposing challenges. Any library can embrace these practical, proven techniques for addressing community needs -- by creating a blueprint that prioritizes services

and creates the space for them within their existing facility.
