New Framework for Researching Views in Community Development; 4. Social Polygraphy: An Approach to Obtaining Information through Mutual Learning; 5. Exploring the Underlying Values; 6. Making Sense of the World; 7. Sustainable Decisions; 8. Working with Community Views; References; Index.
Sommario/riassunto	Using a case study of the Trio indigenous peoples in Suriname, Conflict and Sustainability in a Changing Environment presents an inside view of a community facing climate change and on the path toward sustainable development. Smith and Bastidas take the reader beyond an examination of examples from the field of practice and into a thorough case study on climate change. With more than ten years of field experience, Smith and Bastidas present an in-depth, bottom-up analysis of sustainable development, including tools for practitioners, insight for academics and advice to policymakers.
