Sommario/riassunto	This book sets out to celebrate physical education and sport, and by doing so, encourage the educational establishment to embrace the subject area as a vehicle for the complete development of the individual. In addition, it shows that the benefits of physical activity far outweigh the shallow claims of populous magazines - there are benefits for the individual, the community and for society as a whole. Laker contends that the importance of physical education and sport in many areas of social life has been overlooked at best, and misused at

Sommario/riassunto The book is for skeptics and Christians. About the book: #Holy Trinity - A Tweet-a-logue is a tweet format discussion of the Trinity between a skeptic and a Trinitarian. Christians shy away from the doctrine because of its seeming complexity. Yet it is the most fundamental truth of their faith and of reality. It tells us what God is like, why we live, how to be happy. Rightly understood it makes sense of our everyday experience and the experience of humanity. The book asks and addresses tough questions: is the doctrine contradictory? what about science? evil and suffering? Incredibly, we see precursors of the truth in the three kinds of pre-Christian religions: the cyclic-mystical of India, the unity-in-multiplicity of China and the historical-linear of Israel. In the end, it is only because of the Trinity that we can truly say that love is the ultimate reality.
