Sommario/riassunto	<p>Sequel to The Alpha's WeavePack Born: Book Two War is looming, and as the alpha, it falls to Dante to protect his shifter pack from the hybrid creatures spawned to prey upon them. To that end he joins forces with the Nephilim Odin in the hopes of keeping both their people safe, though past slights and animosity between the clans continue to cause strain. Attacks on the packs and Nephilim clans increase, and the seemingly endless army of hybrids will not stop growing. Dante knows their only chance to put an end to the carnage is to find the nest where his twin August and August's mistress are creating the hybrids. With entire cities being destroyed, Dante must call upon the pack weave to find the people who have been captured--and the nest. Dante and Odin gather an army for an all-out attack. Though a desperate and risky move, Dante has been backed into a corner and he sees no other alternative. It's a battle they must win at any price, because the cost of losing will be catastrophic.</p>
