Sommario/riassunto	<p>It is a blessing, a warning, and a sign that these Six Covenants of the Prophet Muhammad with the Christians of His time have resurfaced at this particular moment in history. Renewed by caliphs and sultans, supported by scores of fatwas, and accepted as law for nearly 1400 years, these documents were common knowledge to educated Muslims and Christians until the collapse of the Ottoman Empire, after which they virtually disappeared from collective consciousness. Their rediscovery will certainly open a new field in both Islamic Studies and interfaith relations.</p>

Sommario/riassunto	A concise and analytical overview of the theoretical and moral issues raised by humanitarian intervention, relating this to the recent historical record. Divided into two parts, it will first explore the setting of contemporary humanitarian interventions in world politics and in political philosophy. It will ask what went wrong with the post-cold war settlement and will track the transition of UN peacekeeping from the cold war to the post-cold war period. The more philosophical aspects of humanitarian intervention will then be explored, along with the inter-linked roles of the media and public
