Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Jordan & Justine's Weekend Adventures: Plants Parts 1 & 2 is an exciting educational ride exploring plant growth, the history of peanuts, healthy eating habits, photosynthesis and family relationships. Jordan and Justine start out by helping their mother in her garden one Saturday morning to plant pumpkin seeds. From there, the brother and sister pair learn how seeds sprout into plants, the health benefits of pumpkins, the history of peanuts, how to research on the internet and then they use their magical powers to get an up close look at photosynthesis. Jordan and Justine's Weekend Adventures inspire children to learn about science, to love their families, to be confident and to use their imaginations!
