Sommario/riassunto	<p>Easy-to-follow identification guides for nature-loving children who want to find out more about British seaside wildlife, in rockpools or on a coastal walk. Includes the most common plants, insects, crustaceans, seaweeds, molluscs and birds found on British seashores today. From shells and anemones, to jellyfish and crabs, lugworms, urchins, sandhoppers, butterflies and gulls, a world of wildlife waits for you to discover it. Full descriptions of each, along with their scientific name, size, family and food. Stunning large colour photographs help to make identification easy. Includes fascinating information about rock pools, the tides, food chains and safety at the beach. Become a nature detective and explore the natural world around you. If you enjoy this book, then why not search out the other titles in this series: British Birds; British Mammals; British Trees; British Wild Flowers; British Butterflies; Urban Wildlife and British Insects.</p>
