Sommario/riassunto	<p>So, your parents have been turned into toddlers by a cranky scientist called Professor Troppy. She invented 'Born Again' cream, which promised to keep people young (they just didn't realise HOW young). What are you going to do? Phone the police - they're toddlers. Call the army - they're toddlers. Even the Royal Family are toddlers! This is exactly what happened to Bobby and Gail, two utterly unloved kids out to save the day. Tommy Donbavand's Funny Shorts is a series of colour illustrated, chapter-based readers published by Franklin Watts EDGE designed to get kids reading with confidence.</p>
