Sommario/riassunto	(2009) Liquid Silver Books - Hearts Afire: October anthology and Forevermore Publishing (year unknown). Ben Storms knows fire. A hotshot, he's not afraid to fight fire with fire and walk into the belly of a blaze to put it out. Only one thing has ever frightened him--how he feels about Hadyn O'Hara, a fellow firefighter. The largest wildland fire in decades brings them together again, working the same handcrew. Too bad Fire is a jealous bitch and doesn't want to share Ben. Hadyn breathes in the spirit of Fire after an injury and sets Ben's heart ablaze--with dire consequences to them both.
