Sommario/riassunto	The Cull only happens every 80 to 100 years. Humans who have fallen on hard times are invited to become part of the lycanosapien tribes--to become werewolves. It is a mutually beneficial relationship for both parties. The humans are given a chance at a new life, and the lycanos are able to stave off extinction for another century. The last Cull took place during the Great Depression. When Anna is chosen for the cull, Conor makes his claim. Claimed By the Alpha, The Cull, Book 1 from USA Today Bestselling paranormal romance author Renee George is a sensual tale of star crossed lovers featuring explosive passion, a determined alpha, and his reluctant curvy mate! Twenty years ago, Anna fell in love with Conor Evans at the wrong place and in the wrong time. She'd had to make the toughest decision she'd ever faced--and let him go. Now at the end of her life, he's offering her a chance to finally follow her heart. Anna has her reasons for refusing Conor, even if it means only living another month, but Conor refuses to give up on the only woman he's ever loved--not without a fight. Anna has another tough choice--go back to her frail humanity or accept Conor's invitation and. . . claim. This BBW paranormal romance contains werewolves, shifters, and super sexy, scorching hot, shifter sex. Claimed By the Alpha is not intended for readers under the age of 18.
