| Sommario/riassunto | This book delves into the psychological and developmental aspects of children's upbringing within the family context. It emphasizes the crucial role of parents, educators, and society in shaping a child's character and potential. The book discusses the importance of providing a conducive environment for children's growth, highlighting factors like parental care, family atmosphere, and encouragement of innate talents. It aims to guide parents and educators in nurturing children's behavioral and emotional development, ensuring they grow into disciplined and morally upright individuals. The book serves as a psychological guide for parents and educators, aiming to foster practical thinking and ethical behavior in children to prepare them for societal challenges. |
