ISBN	978-88-596-1874-4
Descrizione fisica	143 p. : ill. ; 24 cm
Altri autori (Persone)	Spinelli, Riccardo <1954- >
Disciplina	728.80945511
Locazione	FARBC
Collocazione	ARCH B 3579
Lingua di pubblicazione	Italiano
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910157659603321
Autore	Elsner P
Titolo	Irritant Dermatitis : : New Clinical and Experimental Aspects // editors, P. Elsner, H.I. Maibach
Pubbl/distr/stampa	Basel : , : S. Karger, , 1995
ISBN	9783318034608 3318034606
Edizione	[1st ed.]
Descrizione fisica	1 online resource (X + 302 pages) : : 123 figures, 22 in color, 60 tables
Collana	Current Problems in Dermatology, , 1662-2944 ; ; Vol.23
Altri autori (Persone)	ElsnerPeter <1955-> MaibachHoward I
Disciplina	616.5
Soggetti	Dermatology Allergy Biochemistry Occupational Diseases Pharmacology Toxicology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"Edited by two well-known experts in the field, this book assembles important new scientific information on all aspects of irritant contact dermatitis. It covers clinical features, epidemiology, prevention and therapy and presents exciting new pathophysiological data. Several contributions focus on irritant contact dermatitis in the workplace, where early diagnosis and treatment is essential to prevent chronic and costly occupational skin disease. New data on immunological, biochemical and biophysical events in irritant dermatitis are also included. A highly informative section by leading researchers sheds light on current attempts to replace animal testing by techniques based on in vitro cell or tissue culture. These are innovations increasingly called for by regulating agencies and the general public." "The volume provides a unique source of information for clinical dermatologists and allergologists, occupational physicians, toxicologists, pharmacologists,
