Sommario/riassunto	<p>Detective Sarah Kismet has the looks, the brain, the leather bustier, and a serial killer to catch. With the odd signature associated with the female victims, she enlists the help of a mythology professor. Dr. Lexington Hurt soon asserts himself in both her investigation with his knowledge and her bed as an expert in her kind of sex. Dirty, dirty sex. Even when her lover becomes linked by physical evidence to the crimes, she cannot stop seeing him. His love for her is evident; however, she is hesitant to fall ... that is, until Lexington is kidnapped. Now she must find him to profess her real feelings. Who would have taken him? Her life runs on heartbeats while she looks, but her heart will beat even quicker when she finds out who killed all those girls.</p>
