Sommario/riassunto	<p>Previously Published Ellora's Cave (2012). Protecting mortals from the evil preying upon them is Tor's number-one job. His dying pledge to serve the Egyptian god Anubis gave him immortality and a life of solitude as a jackal shifter--for thousands of years. But all that changes when he saves a young woman from being attacked. The moment he sees her face his blood--and his cock--stirs. For the first time ever he is reluctant to wipe himself from a victim's mind. She becomes the center of his existence, and nothing but total possession will do. Kenna can't believe her luck when the sexy-as-hell stranger approaches the Luxor Hotel reception desk and asks her out. There's something familiar about him, but she just can't place it. She falls hard and fast, and scorching sex is just the icing on the cake. Tor's guarded secret could change everything, however. Sure, she was open to settling down, but life with Tor would put a whole new meaning on the word forever.</p>
