Sommario/riassunto	<p>He's back! After ten years of globetrotting and a tabloid worthy lifestyle, James has returned to his pack. Little does he realize an old attraction to the pack Guardian is alive and burning inside his wolf heart. Award winning, GLBT romance author Lila Dubois pens a wonderful tale of romance, passion, and healing in His Wolf Heart. James Farrant left his were-wolf pack ten years ago, but not before he made an impression on Micah. Micah, who once fostered with the Farrant pack, is now the pack Guardian--a wolf who will never have a pack of his own, because he will never be part of a breeding pair. When James left, Micah was still coming to terms with his sexuality. The single kiss they shared continues to haunt Micah after all these years. When James returns to the pack, after having spent the intervening years as a playboy, his photo splashed across the tabloids of Europe, Micah is taken aback by his attraction to James. James is stunned to see Micah, who had turned into one very hot man. A chance encounter at a club leads to a night of wild sex, but in the morning, the connection, and the attraction is still there. James's reasons for leaving are more complicated than anyone knows, and with Micah's help, there is a chance James can heal himself--both man and wolf. This GLBT paranormal romance contains shapeshifters, werewolves, and adult themes. His Wolf Heart is not intended for readers under the age of 18.</p>
