Sommario/riassunto	Should I Not Return is the story of a young east coast climber, who joins his brother in Alaska to climb Mount McKinley. What set their climb apart from those before it, and even those afterward, was a disaster of such magnitude that it became know as North America's worst mountaineering tragedy. Prior to July of 1967 only four men had ever perished on Denali, and then, in one fell swoop, Denali-like

Melville's, *Great White Whale, Moby Dick*--indiscriminately took the lives of seven men. The brothers survive one danger after another: a terrible train accident, a near drowning in the McKinley River, an encounter with a large grizzly, a 60 foot plunge into a gaping crevasse, swept away by a massive avalanche, and finally a climactic escape from the terror of 100 mph winds while descending from the summit. *Should I Not Return* is a one of a kind cliffhanger packed with danger, survival under the worst conditions, and heroism on the Last Frontier's most treasured trophy--the icy slopes of Denali, North America's tallest mountain--Mount McKinley.
