Sommario/riassunto	Welcome to Beaver Village Pit in Alaska, where botanist Kenai Cranston searches for extinct plants within the frozen tundra of The Last Frontier. During his research Cranston discovers seeds from the Garden Of Eden's Tree Of Life. The tree's seeds are stolen and the fight for the fruit is the beginning of what could become World War III. The Lost Tree takes an intensely personal look at a wide range of human relationships and personality extremes. Characters run from outrageously callous to the extremely tender. The story chronicles senseless human greed mixed with the humor of trying to obtain excessive wealth. Great care is shown in closely tracking mankind's history, while suggesting

possible earthly and heavenly mechanisms, which could have been used in generating that history. The Lost Tree Of Life is a fictional account of what may have been going on behind the scenes during some of mankind's most amazing history.
