Sommario/riassunto	<p>Sequel to Evolution. Evolution made music history when one bandmate turned vampire and another joined the vampire hate movement Preservation Group. Gene is trying to cling to the music as his relationship with Kerstrande begins to spiral into the darkness of hidden demons. Jaded by his years as a vampire flunkie, Kerstrande uses his newly won power over New York City to destroy his enemies and protect Gene. But a demon called a Fallen begins to take control of KC, slowly devouring his soul and through him the entire city. Battling against the evil that wants to destroy him, Kerstrande fights to hold onto Gene's brightness. A power unlike any other grows within Gene and shines like a beacon to the demons surrounding him. Realizing that only he can save his lover, Gene is willing to do anything to shake the darkness loose. Even if it means reshaping the future, the band, and his own existence.</p>
