The canons of Antioch -- Appendix II. Additional notes on the subscription lists -- Appendix III. The origin of the canons: the two-collection theory.
Sommario/riassunto	This text begins with a close study of the canons of Antioch and proposes a new chronology for their composition. It then works from that conclusion to demonstrate the significance of canon law as a resource for understanding the early Church. Finally, it explores the nature and status of canon law in its early developmental period.
