Descrizione fisica	1 online resource (341 pages)
Disciplina	306.094309
Soggetti	Social Conditions Sociology & Social History Social Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	This is a social history of Germany in the years following the First World War. Germany's defeat and the subsequent demobilization of her armies had devastating social and psychological consequences for the nation, which Richard Bessel sets out to explore in this book.; Dr Bessel examines the changes brought by the war to Germany, and those resulting from the return of the soldiers to civilian life and the subsequent demobilization of the economy. He demonstrates that the postwar transition was viewed as a moral crusade by Germans desperately concerned about challenges to traditional authority, assessing the ways in which the experience of the War, and memories of it, affected the politics of the Weimar Republic.; This is an original and scholarly book which offers us important insights into the sense of dislocation experienced of both personal and national levels by Germany and Germans in the 1920s, and its damaging legacy for German democracy.
