limits of uploading : the EU and the UN disability convention / Grainne de Burca -- Conclusions : empirical findings and experimentalist pathways / Jonathan Zeitlin.

Sommario/riassunto

This title tackles questions about the external dimension of EU experimentalist governance and its relationship to broader trends in transnational regulation through in-depth analysis of recent developments across a series of key policy domains by an interdisciplinary group of European and North American scholars. The domains addressed include neighbourhood policy, food safety, GMOs, chemicals, forestry, competition, finance, data privacy, disability rights, crisis management, justice, and security.
