

1. Record Nr.	UNINA9910158574003321
Autore	Cronin Michael <1960->
Titolo	Eco-translation : translation and ecology in the age of the anthropocene // Michael Cronin
Pubbl/distr/stampa	London : , : Routledge, Taylor & Francis Group, , 2017
ISBN	1-315-68935-9 1-317-42388-7 1-317-42389-5 9781315689357
Edizione	[1st ed.]
Descrizione fisica	1 online resource (ix, 177 pages)
Collana	New perspectives in translation and interpreting studies
Disciplina	418/.0209 418.0209
Soggetti	Translating and interpreting - History Translating and interpreting - Research Nature - Effect of human beings on Global environmental change Anthropological linguistics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	1. Paying attention -- 2. Eating our words -- 3. Translating animals -- 4. The Great Transition -- 5. Language worlds.
Sommario/riassunto	Ecology has become a central question governing the survival and sustainability of human societies, cultures and languages. In this timely study, Michael Cronin investigates how the perspective of the Anthropocene, or the effect of humans on the global environment, has profound implications for the way translation is considered in the past, present and future. Starting with a deep history of translation and ranging from food ecology to inter-species translation and green translation technology, this thought-provoking book offers a challenging and ultimately hopeful perspective on how translation can play a vital role in the future survival of the planet.
