Autore	Puthucherril Tony George
Titolo	Towards sustainable coastal development : institutionalizing integrated coastal zone management and coastal climate change adaptation in South Asia // Tony George Puthucherril
Pubbl/distr/stampa	Leiden, Netherlands : , : Brill Nijhoff, , 2015 ©2015
ISBN	90-04-28220-3
Descrizione fisica	1 online resource (510 p.)
Collana	Legal Aspects of Sustainable Development, , 1875-0923 ; ; Volume 20
Disciplina	346.5404/6917
Soggetti	Coastal zone management - Law and legislation - South Asia Coastal zone management - Government policy - South Asia Sustainable development - Law and legislation - South Asia Sustainable development - Government policy - South Asia Integrated coastal zone management - South Asia Climatic changes - Law and legislation - South Asia
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Preliminary Material -- 1 Introduction -- 2 Threatened Coasts, Communities and Ecosystems: The Need for Integrated Coastal Zone Management -- 3 Coastal Laws, Integrated Coastal Zone Management, and Coastal Climate Change Adaptation in South Asia -- 4 Understanding Sustainable Coastal Development -- 5 Linking Coastal Climate Change Adaptation to an Integrated Coastal Zone Management Process for Sustainable Coastal Development -- 6 Coastal Law, ICZM and Adapting to Sea Level Rise -- 7 Law in the Service of ICZM and Coastal Climate Change Adaptation -- 8 A Regional Regime for ICZM and Coastal Climate Change Adaptation in South Asia -- 9 A Principled Approach to Sustainable Coastal Development in South Asia -- 10 Conclusion -- Selected Bibliography -- Index.
Sommario/riassunto	Coastal areas around the world are severely stressed due to a myriad of human activities and marine pollution. They are now detrimentally being affected by climate change and sea level rise as well. One major theater most acutely impacted by these phenomena is coastal South

Asia, an overcrowded region with low adaptive capacities. Drawing on the experiences of coastal countries and regions beyond South Asia, Towards Sustainable Coastal Development: Institutionalizing Integrated Coastal Zone Management and Coastal Climate Change Adaptation in South Asia recommends operationalizing integrated coastal zone management and linking the same with coastal climate change adaptation under appropriately crafted coastal laws to facilitate a move towards sustainable coastal development.

Globalisation's Influence on Relations between National Public Laws

Sommario/riassunto

Globalisation, Law and the State begins - as is customary in globalisation literature - with an acknowledgement of the definitional difficulties associated with globalisation. Rather than labour the point, the book identifies some economic, political and cultural dimensions to the phenomenon and uses these to analyse existing and emerging challenges to State-centric and territorial models of law and governance. It surveys three areas that are typically associated with globalisation - financial markets, the internet, and public contracts - as well as trade more generally, the environment, human rights, and national governance. On this basis it considers how global legal norms are formed, how they enmesh with the norms of other legal orders, and how they create pressure for legal harmonisation. This, in turn, leads to an analysis of the corresponding challenges that globalisation presents to traditional notions of sovereignty and the models of public law that have grown from them. While some of the themes addressed here will be familiar to students of the European process (there are prominent references to the European experience throughout the book), Globalisation, Law and the State provides a clear insight into how the sovereign space of States and their legal orders are diminishing and being replaced by an altogether more fluid system of intersecting orders and norms. This is followed by an analysis of the theory and practice of the globalisation of law, and a suggestion that the workings of law in the global era can best be conceived of in terms of networks that link together a range of actors that exist above, below and within the State, as well as on either side of the public-private divide. This book is an immensely valuable, innovative and concise study of globalisation and its effect on law and the state
