

1. Record Nr.	UNINA9910158619503321
Autore	Thiel Kristin <1977->
Titolo	Dorothy Hodgkin : biochemist and developer of protein crystallography // Kristin Thiel
Pubbl/distr/stampa	New York : , : Cavendish Square, , 2017 2017
ISBN	1-5026-2314-5
Edizione	[First edition.]
Descrizione fisica	1 online resource (128 pages) : illustrations (some color), portraits
Collana	Women in science
Disciplina	540.92
Soggetti	Crystallographers - Great Britain Women biochemists - Great Britain X-ray crystallography - History
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction: A major presence in the study of tiny matter -- From classroom to laboratory: always Dorothy -- A lab of her own -- Where there's a crystal, there's a structure; where there's structure, there's understanding -- Obstacle courses and support systems -- From google doodle to rural diamond.
Sommario/riassunto	This book explores the life, accomplishments, and legacy of Dorothy Hodgkin (1910-1994), a leader in the technique of X-ray crystallography. She won a Nobel Prize for her pioneering research.
