| Nota di bibliografia    | Includes bibliographical references and index.   |
| Nota di contenuto       | What is a robot made of? -- Understanding constraints -- Basic machines and power systems -- Problem solving with robotics -- The motion of humanoid robots.   |
| Sommario/riassunto      | This book describes the physical elements, such as gears, wheels, and belts, needed for the robot to maneuver around and over objects in its environment. Included is a section on how design can affect the performance of the robot. |
