Sommario/riassunto

This book provides a comprehensive analysis of Finland's role in World War II, covering the years 1939 to 1944. Edited by John H. Wuorinen, a professor of history, it explores Finland's foreign policy, its involvement in the Winter War, the Continuation War, and the complexities of its relationship with major powers such as the Soviet Union, Germany, and the Western Allies. The author presents an objective narrative, highlighting Finland's efforts to navigate the geopolitical challenges of the era. The book also discusses the peace negotiations and armistice agreements that eventually led to Finland's exit from the war. Aimed at historians and readers interested in World War II and Finnish history, the book sheds light on a lesser-known aspect of the war.
