Sommario/riassunto

Kenneth Cooke recounts the harrowing true story of his survival after the sinking of the S.S. *Lulworth Hill* in 1943. As one of the fourteen survivors who initially escaped to a small raft, Cooke details the grim 50-day journey on the Atlantic Ocean where he remained the sole survivor. The narrative captures the relentless struggle against the sea and the slow demise of his fellow shipmates. Cooke's account serves as a testament to the endurance of the human spirit amidst dire circumstances. Written not as a professional author but as a man compelled to share his unvarnished truth, this book seeks to preserve the reality of those terrible days for both himself and history.
