Sommario/riassunto	How far would you go to find sexual satisfaction? What would you do to feel fulfilled? You are successful, wealthy, the envy of everyone you know. You seem to have it all. Except sexual satisfaction. What would you do to feel finally satisfied and gain control in the one part of your life in which you have none? Would you trust your innermost desires to two men you barely know? Would you allow them to take you to your breaking point of complete passion and sexual fulfillment? Would you allow them to introduce you to the Thirteen Acts?
