	Livello bibliografico	Monografia
	Sommario/riassunto	A criteria-based core privileging system ensures consistency, flexibility, efficiency, and objectivity. However, transitioning to core privileges can be a daunting and overwhelming task. Criteria- Based Core Privileging: Guide to Implementation and Maintenance helps take the hassle out of that transition. Acting as a how-to guide, this book provides the necessary steps for medical staff and credentialing leaders to successfully adopt a criteria-based system. In addition, it also lays out a road map to overcome the biggest challenges along the way, including obtaining buy-in from physicians and hospital leaders. This book will help medical staff leaders: - Develop a criteria-based core privileging system that is flexible, efficient, consistent, and objective - Identify key tips on how to obtain staff buy-in - Identify a clear path of transition to criteria-based privileging - Discuss how to apply criteria-based privileging to various practitioner categories - Handle privileging requests for new procedures and technology
