

1. Record Nr.	UNINA9910158987203321
Autore	Woodward Paula
Titolo	We have your daughter : the unsolved murder of JonBenet Ramsey twenty years later / / Paula Woodward
Pubbl/distr/stampa	Westport : , : Prospecta Press, , [2016] ©2016
ISBN	1-63226-078-6
Edizione	[First edition.]
Descrizione fisica	1 online resource (477 p.)
Classificazione	TRU002000
Disciplina	364.152/30978863
	B
Soggetti	Murder - Colorado - Boulder Beauty contestants - Crimes against - Colorado - Boulder Beauty contestants - Abuse of Child abuse Colorado Boulder
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Sommario/riassunto	In We Have Your Daughter: The Unsolved Murder of JonBenet Ramsey Twenty Years Later, Emmy Award-winning investigative journalist Paula Woodward offers an unprecedented, definitive, insider perspective on the twentieth anniversary of one of the most heinous, sensationalized, unsolved crimes in American history. Here for the first time, Woodward examines conversations and information from all sides of those involved in the case. She shares information compiled during the twenty years she reported on the murder, including private conversations with law enforcement individuals directly involved in

2. Record Nr.	UNINA9910299970103321
Autore	Pflug Georg Ch
Titolo	Multistage Stochastic Optimization / / by Georg Ch. Pflug, Alois Pichler
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2014
ISBN	3-319-08843-2
Edizione	[1st ed. 2014.]
Descrizione fisica	1 online resource (309 p.)
Collana	Springer Series in Operations Research and Financial Engineering, , 1431-8598
Disciplina	519.2
Soggetti	Operations research Decision making Management science Mathematical optimization Operations Research/Decision Theory Operations Research, Management Science Optimization
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- The Nested Distance -- Risk and Utility Functionals -- From Data to Models -- Time Consistency -- Approximations and Bounds -- The Problem of Ambiguity in Stochastic Optimization -- Examples.
Sommario/riassunto	Multistage stochastic optimization problems appear in many ways in finance, insurance, energy production and trading, logistics and transportation, among other areas. They describe decision situations under uncertainty and with a longer planning horizon. This book contains a comprehensive treatment of today's state of the art in multistage stochastic optimization. It covers the mathematical backgrounds of approximation theory as well as numerous practical algorithms and examples for the generation and handling of scenario trees. A special emphasis is put on estimation and bounding of the modeling error using novel distance concepts, on time consistency and the role of model ambiguity in the decision process. An extensive treatment of examples from electricity production, asset liability

management and inventory control concludes the book.
