Sommario/riassunto	Wael B. Hallaq is regarded as one of the leading scholars in the field of Islamic law. In a path-breaking new book, the author shows how authority guaranteed both continuity and change in Islamic law. While the role of the law schools in augmenting these processes was of the essence, the author demonstrates that it was the construction of the absolutist authority of the school founder, an image which he suggests was actually developed later in history, that maintained the foundations of school methodology and hermeneutics. The defence of that methodology gave rise to an infinite variety of individual legal opinions, ultimately accommodating changes in the law. Thus the author

concludes that the mechanisms of change were embedded in the very structure of Islamic law, despite its essentially conservative nature. This book will be welcomed by specialists and scholars in Islamic law for its rigour and innovation.

Sommario/riassunto	The voyage of Carina is the real-life story of the Schrader family's three-year exploring adventure while living aboard a 40-foot sailboat. Father, mother, and four daughters travel from Alaska to Florida where they buy a sailboat with the intention of sailing it around the world.

They begin as six family members, but learn to work together as Carina's crew--a team that can handle anything that comes their way--violent storms, days of boredom, sleepless nights spent putting up and taking down sails, long ocean crossings, relentless rain, sailing mishaps, triumphs, a little romance, and assorted creatures of the sea such as sharks and whales. Carina is the book for explorers who dream of sailing the seven seas. Patty tells the story from her viewpoint as one of the crew of Carina. As a teenager, she learned about herself and how she responded to the uncertainties of life, gaining confidence in her own ability, and learning to be the person she wanted to become.
