Sommario/riassunto	Going Local is an authoritative guide for parents who wish to gain better understanding of the Swiss school system. It maps out all the stages of schooling from Kindergarten to university in all 26 cantons, providing key facts and useful terminology in German, French and Italian.Going Local unravels how children advance through the school system and lists the different selection criteria around the country for the academic path. It also clearly explains the range of options and alternative paths that lead to tertiary education. It highlights issues parents need to address in order to help thei

Sommario/riassunto	Today is Jack's birthday, but it also happens to be a school day. Even worse, there doesn't seem to be anyone to enjoy his day with. He talks

to God about it and is reminded of Bible verses throughout the day,
which help him find ways to be thankful in spite of everything.
