

1. Record Nr.	UNINA9910160261103321
Titolo	Deep Sternal Wound Infections // edited by Raymund E. Horch, Christian Willy, Ingo Kutschka
Pubbl/distr/stampa	Berlin, Heidelberg : , : Springer Berlin Heidelberg : , : Imprint : Springer, , 2016
Edizione	[1st ed. 2016.]
Descrizione fisica	1 online resource (139 pages) : illustrations
Disciplina	617.01
Soggetti	Surgery, Plastic Traumatology Critical care medicine Medical rehabilitation Plastic Surgery Traumatic Surgery Intensive / Critical Care Medicine Rehabilitation Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Anatomical basis -- Physiology and Pathophysiology -- Wound management -- Bony stabilization Prevention -- Prevention of poststernotomy wound infections in obese patients by negative pressure wound therapy -- Rehabilitation after sternal osteomyelitis.
Sommario/riassunto	This concise and practical handbook covers the basics of pathophysiology, diagnosis, interdisciplinary surgical management, prevention and rehabilitation of patients with deep sternal wound infections and sternal osteomyelitis. All relevant aspects and surgical procedures are explained in an easily understandable way. Additionally special approaches and preventive measures are highlighted with regard to the perioperative handling as well as the rehabilitation possibilities. Through concise texts with numerous illustrations, the book is ideal for the practice and as a supplement to further studies. This book is suitable for all specialists who are involved into the

treatment and diagnosis of sternal wound infections, particularly cardio-thoracis, thoracic, plastic, vascular surgeons, cardiologists, radiologists, and rehabilitation physicians.
