Sommario/riassunto	Throughout the 1990s, Medecins Sans Frontieres (MSF) faced the challenges posed by the genocide of Rwandan Tutsis and a succession of outbreaks of political violence in Rwanda and in its neighbours. One of the authors, a doctor, participated in MSF's Rwandan operations during the 1990s. The other, a sociologist, has been an assiduous researcher into humanitarian action and its context since 1994
