Sommario/riassunto	<p>Describes ancient Greece from the author's first-hand observations.</p> <p>Annotation Pausanias, born probably in Lydia in Asia Minor, was a Greek of the 2nd century CE, about 120A-180, who travelled widely not only in Asia Minor, Palestine, Egypt and North Africa, but also in Greece and in Italy, including Rome. He left a description of Greece in ten books, which is like a topographical guidebook or tour of Attica, the Peloponnese, and central Greece, filled out with historical accounts and events and digressions on facts and wonders of nature. His chief interest was the monuments of art and architecture, especially the most famous of them; the accuracy of his descriptions of these is proved by surviving remains. The Loeb Classical Library edition of Pausanias is in five volumes; the fifth volume contains maps, plans, illustrations, and a general index.</p>

Sommario/riassunto	"With the rare ability to see ghosts in both the human and daemon worlds, Lucky de Salle has discovered she is both a desirable ally. and a potentially dangerous enemy. And she is definitely a liability to those who love her. When Kayla, her best friend and daemon familiar, mysteriously disappears, she and her daemon guardian begin the search for her in the Underlands immediately. Along the way they stumble across a secret that seems to make her even more of a danger to her enemies--and therefore an even greater target. Soon the hunters become the hunted. Henri le Dent, the dangerous and well-connected daemon who already tried to permanently erase her from existence once, and Amaliel Cheriour, the sinister executioner of the daemon court, want to put an end to Lucky at all costs. If she is to find Kayla and survive, Lucky has to rely on her wits, her inner strength, her new

friends, and the emerging talents that make her more powerful than she ever realized"--
