

1. Record Nr.	UNICAMPANIAVAN00276799
Titolo	A Primer of Subquasivariety Lattices / Kira Adaricheva ... [et al.]
Pubbl/distr/stampa	Cham, : Springer, 2022
Descrizione fisica	ix, 290 p. : ill. ; 24 cm
Soggetti	06-XX - Order, lattices, ordered algebraic structures [MSC 2020]
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
2. Record Nr.	UNINA9910160352203321
Titolo	A data-based assessment of research-doctorate programs in the United States // Committee on an Assessment of Research Doctorate Programs ; Jeremiah P. Ostriker, Charlotte V. Kuh, and James A. Voytuk, Paul W. Holland, editors ; Board on Higher Education and Workforce, Policy and Global Affairs, National Research Council of the National Academies
Pubbl/distr/stampa	Washington, D.C., : National Academies Press, 2010
ISBN	0-309-22479-9 0-309-45460-3
Descrizione fisica	1 online resource (xvii, 304 p.) : ill. ; + 1 CD-ROM
Altri autori (Persone)	National Research Council (U. S.) OstrikerJ. P KuhCharlotte V VoytukJames A
Disciplina	378.2
Soggetti	Universities and colleges - Study and teaching (Graduate) - United States - Evaluation Research - United States - Evaluation Doctor of philosophy degree - United States - Evaluation Science - Study and teaching (Graduate) - United States - Evaluation Humanities - Study and teaching (Graduate) - United States - Evaluation Engineering - Study and teaching (Graduate) - United States - Evaluation Social sciences - Study and teaching (Graduate) - United States - Evaluation Doctor of philosophy degree - Evaluation - United States

Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes report, methodology, and data tables.
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Context and motivation -- Study design -- The methodologies used to derive two illustrative rankings -- Some uses of the data -- The data and principal findings -- Looking ahead -- Appendixes.
Sommario/riassunto	"A Data-Based Assessment of Research-Doctorate Programs in the United States provides an unparalleled dataset collected from doctoral programs, doctoral faculty and public sources that can be use to assess the quality and effectiveness of doctoral programs based on measures important to faculty, students, administrators, funders, and other stakeholders. The committee collected 20 measures that include characteristics of the faculty, such as publications, citations, grants, and diversity; and characteristics of the students, such as their GRE scores, financial support, publications, and diversity; and characteristics of the program, such as number of Ph.D.s granted over five years, time to degree, percentage of student completion, and placement of students after graduation. The data were collected for the academic year 2005-2006 from more than 5,000 doctoral programs at 212 universities. these observations span 62 fields and the research productivity data are based typically on a five-year interval. Some datasets (such as publications and citations) go as far back as 1981. Information on enrollments and faculty size were also collected for 14 emerging fields ... Accompanying the report are Data tables and a detailed explanation

of the methodology used to collect data and calculate ranges of  
rankings--Summary.
