Sommario/riassunto	How can an information security professional keep up with all of the hacks, attacks, and exploits on the Web? One way is to read Hacking Web Apps. The content for this book has been selected by author Mike Shema to make sure that we are covering the most vicious attacks out there. Not only does Mike let you in on the anatomy of these attacks, but he also tells you how to get rid of these worms, trojans, and botnets and how to defend against them in the future. Countermeasures are detailed so that you can fight against similar attacks as they evolve. Attacks featured in this

Sommario/riassunto	<p>"Re-Revelation" All new tale picking up from where the critically acclaimed CARBON graphic novel left off. Jacob "Heat" Hatfield leads Eden's survivors away from the liquefied sea of the burning coal but the chaos of a rapidly accelerating environmental disaster threaten to engulf the Earth. With the cryptic message of "Go to the Burning Spring. Make Red Salt," the survivors race ahead of a double threat of the carbon demons and the new militia.</p>
