Sommario/riassunto	<p>A ruined castle, a young woman's obsession, an alluring and mysterious man. The past and present are about to collide in Meet Me At the Castle, Denise A. Agnew's haunting tale of passion and romance. Nothing will ever be the same again! Elizabeth Albright lives a simple life at Penham Manor under the watchful and disapproving eye of her father and stepmother. They think she's odd for loving to paint Cromar Castle, a ruin on the hill. Even Elizabeth doesn't understand why she insists on painting the structure over and over. Yet her compulsion demands it--there is something alive and beautiful about the castle that she cannot resist. When she meets the devilishly handsome Damian, more than her interest is piqued, for he engages her like no other has. But her stepmother has plans that will take her away from Cromar--and Damian--forever.</p> <p>Content Notes: Spicy, Historical, Gothic, Paranormal, Ghosts, Hauntings</p>
