Sommario/riassunto	The mountain man won her over with his acts of heroism and bravery ... and blazed a trail straight into her heart! The West comes alive in Marie Caron's grand tale of romance and adventure in What the Heart Wants. She never expected to find lust and love on a wagon train through the wilderness, but she had never met a man like John O'Hara before. Tall and tan, the half-breed scout's body was as taut as a bowstring and as strong as a bear. Together they scorched the prairie grasses with their passion. Would her love for him be enough, or would he leave her for the mountains that were a part of his soul? Content Notes: Spicy, Historical 1800's, Western, Multi-cultural
