

1. Record Nr.	UNINA9910160796103321
Autore	Spyri Johanna
Titolo	Heidi
Pubbl/distr/stampa	Chicago : , : Otbebookpublishing, , 2015 ©2015
ISBN	3-95676-039-5
Edizione	[1st ed.]
Descrizione fisica	1 online resource (271 p.)
Collana	Classics To Go
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"Heidi" is a delightful story for children of life in the Alps, one of many tales written by the Swiss authoress, Johanna Spyri, who died in her home at Zurich in 1891. She had been well known to the younger readers of her own country since 1880, when she published her story "Heimathlos", which ran into three or more editions, and which, like her other books, as she states on the title page, was written for those who love children, as well as for the youngsters themselves. Her own sympathy with the instincts and longings of the child's heart is shown in her picture of Heidi. The record of the early life of this Swiss child amid the beauties of her passionately loved mountain-home and during her exile in the great town has been for many years a favourite book of younger readers in gery and America.

2.	Record Nr.	UNINA9910895473403321
	Titolo	Armenian journal of mathematics
	Pubbl/distr/stampa	Yerevan, Armenia, : National Academy of Sciences of Armenia
	Descrizione fisica	1 online resource
	Soggetti	Mathematics - Armenia Mathematics Periodicals. Armenia
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Periodico
	Note generali	Refereed/Peer-reviewed
3.	Record Nr.	UNINA9910438089803321
	Autore	Nelson Barry
	Titolo	Foundations and Methods of Stochastic Simulation : A First Course // by Barry Nelson
	Pubbl/distr/stampa	New York, NY : , : Springer US : , : Imprint : Springer, , 2013
	ISBN	1-4614-6160-X
	Edizione	[1st ed. 2013.]
	Descrizione fisica	1 online resource (283 p.)
	Collana	International Series in Operations Research & Management Science, , 2214-7934
	Disciplina	519.2
	Soggetti	Operations research Management science Computer simulation Operations Research and Decision Theory Operations Research, Management Science Computer Modelling
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Note generali	Description based upon print version of record.

Nota di bibliografia	Includes bibliographical references (pages 267-271) and index.
Nota di contenuto	Why Do We Simulate? -- Simulation Programming: Quick Start -- Examples -- Simulation Programming with VBA Sim -- Two Views of Simulation -- Simulation Input -- Simulation Output -- Experiment Design and Analysis -- Simulation for Research -- VBA Sim.
Sommario/riassunto	<p>This graduate-level text covers modeling, programming and analysis of simulation experiments and provides a rigorous treatment of the foundations of simulation and why it works. It introduces object-oriented programming for simulation, covers both the probabilistic and statistical basis for simulation in a rigorous but accessible manner (providing all necessary background material), and provides a modern treatment of experiment design and analysis that goes beyond classical statistics. The book emphasizes essential foundations throughout, rather than providing a compendium of algorithms and theorems, and prepares the reader to use simulation in research as well as practice. The book is a rigorous but concise treatment, emphasizing lasting principles, but also providing specific training in modeling, programming and analysis. In addition to teaching readers how to do simulation, it also prepares them to use simulation in their research; no other book does this.</p>
