

1. Record Nr.	UNINA9910161636103321
Autore	Cosgrove William M
Titolo	RCRA Waste Management: Planning, Implementation and Assessment of Sampling Activities
Pubbl/distr/stampa	[Place of publication not identified], : American Society for Testing & Materials, 2000
ISBN	0-8031-4545-4
Descrizione fisica	1 online resource (76 pages) : illustrations
Disciplina	628.4/2
Soggetti	Hazardous wastes - United States - Management
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	A basic reference on development of a sampling strategy to meet objectives of projects associated with common RCRA waste management activities, intended to be a companion document to EPA's SW-846, the guidance manual for planning and conducting sampling activities under RCRA. Planning, implementation, and assessment phases are discussed for a variety of waste management scenarios, with step-by-step directions for completing a sampling investigation associated with a data collection activity for waste identification purposes under RCRA. Includes a "waste pile" waste identification case history. Cosgrove is a science advisor in EPA's Science and Ecosystem Support Division.
