Disciplina	676.22
Soggetti	Dyes and dyeing - Paper Optical brighteners
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Bibliographic Level Mode of Issuance: Monograph
Sommario/riassunto	By far, the largest single consumer of Fluorescent Whitening Agents (FWAs) is the soap and detergent industry. In the past, the identification of these products in test methods, publications, customs declarations, etc. has been primarily limited to individual supplier's trade names which often create confusion and ambiguity. Although several of the products are included in the Colour Index, this compilation is incomplete and, in some instances, inaccurate.
