ISBN	3-11-038084-6 3-05-009561-X
Descrizione fisica	1 online resource (368 p.)
Classificazione	ET 580
Disciplina	413.0285
Soggetti	Lexicography - Data processing
Lingua di pubblicazione	Tedesco
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Frontmatter -- Vorwort -- Inhalt -- Einleitung -- 1. Technische Rahmenbedingungen der Internetlexikografie -- 2. Typologie von Internetwörterbüchern und -portalen -- 3. Der lexikografische Prozess -- 4. Datenmodellierung -- 5. Vernetzungs- und Zugriffsstrukturen -- 6. Automatische Gewinnung von lexikografischen Angaben -- 7. Nutzerbeteiligung -- 8. Wörterbuchbenutzungsforschung -- Schlagwortverzeichnis
Sommario/riassunto	Das Internet ist mittlerweile das zentrale Medium für Datenaustausch und Datenrecherche. Auch für Wörterbücher ist es die zentrale Publikationsplattform. Aus dieser tiefgreifenden Veränderung der Wörterbuchlandschaft ergeben sich eine ganze Bandbreite neuer Fragen für die lexikografische Praxis und die Wörterbuchforschung, z. B. zur Datenmodellierung für Internetwörterbücher, zur Vernetzung von Wörterbuchinhalten, zu den Navigations- und Zugriffsmöglichkeiten, zur automatischen Gewinnung von lexikografischen Angaben, zum lexikografischen Prozess sowie zu neuen Möglichkeiten der Benutzerbeobachtung und -interaktion. Um diese Forschungsfragen zu diskutieren, förderte die Deutsche Forschungsgemeinschaft über drei Jahre hinweg ein wissenschaftliches Netzwerk Internetlexikografie, an dem Vertreterinnen und Vertreter wichtiger deutscher und europäischer

Institutionen beteiligt waren. Ergebnis dieser Netzwerkarbeit ist der vorliegende Band, der in die zentralen Arbeitsfelder der Internetlexikografie erstmals gesammelt einführt und den aktuellen Stand der wissenschaftlichen Forschung und lexikografischen Praxis vorstellt.

The internet has by now become the most important platform for publishing lexicographic content. In this volume, representatives from the Internet Lexicography network sponsored by the German Research Foundation provide the first-ever introduction to the central working areas of internet lexicography and present the current state of academic research and lexicographic practice.

Sommario/riassunto

This book provides an essential introduction to the state-of the-art in interdisciplinary Mathematics Education. First, it begins with an outline of the field's relevant historical, conceptual and theoretical backgrounds, what "discipline" means and how inter-, trans-, and meta-disciplinary activities can be understood. Relevant theoretical perspectives from Marx, Foucault and Vygotsky are explained, along with key ideas in theory, e.g. boundaries, discourses, identity, and the division of labour in practice. Second, the book reviews research findings of mainly empirical studies on interdisciplinary work involving mathematics in education, in all stages of education that have become disciplined. For example, it reports that a common theme in studies in middle and high schools is assessing the motivational benefits for the learner of subsuming disciplinary motives and even practices to extra-academic problem-solving activities; this is counter-balanced by the effort needed to overcome the disciplinary boundaries in academic institutions, and in professional identities. These disciplinary boundaries are less obviously limitations in middle and primary schools, and in some vocational courses. Third and finally, it explores selected case studies that illustrate these concepts and findings, both in terms of the motivational benefits for learners and the institutional and other boundaries involved.

Sommario/riassunto	Bankruptcy prediction is one of the most important research areas in corporate finance. Bankruptcies are an indispensable element of the functioning of the market economy, and at the same time generate significant losses for stakeholders. Hence, this book was established to collect the results of research on the latest trends in predicting the bankruptcy of enterprises. It suggests models developed for different countries using both traditional and more advanced methods. Problems connected with predicting bankruptcy during periods of prosperity and recession, the selection of appropriate explanatory variables, as well as the dynamization of models are presented. The reliability of financial data and the validity of the audit are also referenced. Thus, I hope that this book will inspire you to undertake new research in the field of forecasting the risk of bankruptcy.

Sommario/riassunto	There are times when the truth invites evil, and there are times when the truth can get you killed. Few residents in the secluded mountain-town of Winston, Colorado, have kind words to say about local troublemaker Sean Coleman. He's a bully, a drunk, and a crime-show addicted armchair detective with an overactive imagination. After a night of poor judgment, Sean finds himself the sole witness to the unusual suicide of a mysterious stranger. With the body whisked away in the chilling rapids of a raging river, no one believes Sean's account.

When his claim is met with doubt and mockery from the people of Winston, Sean embarks on a far-reaching crusade that takes him across the country in search of the dead man's identity and personal vindication. He hopes to find redemption and the truth---but sometimes the truth is better left unknown.
