Descrizione fisica	1 online resource (30 p.)
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	While Bearful Bear goes about another day in the forest, he wonders whether he can learn to move like all of the animals around him. Every creature he encounters shares how they move, and then Bearful has the opportunity to practice his new skill. Children will learn how to fly, gallop, hop, and more with this rhythmic, rhyming tale about an inquisitive bear whose animal friends teach him to move in many new ways. These catchy how-to's not only encourage movement by the reader, but also encourage language development and outright fun
