

1. Record Nr.	UNINA9910162790203321
Titolo	How Autism Is Reshaping Special Education: The Unbundling of Idea
Pubbl/distr/stampa	Rowman & Littlefield Publishers Lanham, Maryland : , : Rowman & Littlefield, , [2017]
ISBN	1-4758-3498-5
Descrizione fisica	1 online resource (xxii, 132 pages)
Altri autori (Persone)	ClaypoolMark K McLaughlinJohn M
Disciplina	371.9
Soggetti	Autistic children - Education - United States Autistic children - Education - Law and legislation - United States Special education - United States
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Unbundling, mass customization, and public policy -- Chapter 2. Market forces, special education, and lost intensity -- Chapter 3. Public schools and autism, it gets very personal -- Chapter 4. Autism, the catalyst for change -- Chapter 5. Reality passes regulation -- Chapter 6. Is there a BCBA in the house? -- Chapter 7. Pervasive inertia -- Chapter 8. Disconnected services, disconnected funding -- Chapter 9. Suggestions for reauthorization: Unbundling IDEA.
Sommario/riassunto	<span>Special education in the United State is based on the concept of access-public schools are open to all children. But access is no longer a sufficient foundation. Approaches and accommodations that lead to academic success are increasingly demanded for those with learning disabilities. Functional, independent-living, and employable skills are requisite, but rare, for those with serious handicapping conditions. Since the last reauthorization of the Individuals with Disabilities Act, four events have transpired that will have a dramatic impact on the next iteration of the federal law: the increase in the number of children diagnosed with autism, the rise of applied behavior analysis, the birth of social media, and the reality of unbundling. In </span><span style="font-style:italic;">How Autism Is Reshaping Special Education:

The Unbundling of IDEA</span><span>, Claypool and McLaughlin explore the effect of these events on a special education process burdened by regulation, where advances in the behavioral sciences and neurosciences blur the lines between education and medicine, and where social media fosters aggressive advocacy for specific disabilities. </span> <span style="font-weight:bold;">2018 International Book Awards: Finalist Education/Academic</span> <span style="font-weight:bold;">2018 Next Generation Indie Book Awards: Finalist Education/Academic (Non-Fiction)</span> <span style="font-weight:bold;">2017 Best Book Awards: Finalist Education/Academic</span>
