Note generali	Proceedings of the International Conference on Materials Science, Energy Technology and Environmental Engineering (MSETEE 2016), Zhuhai, China, 26-29 May 2016. A Balkema Book--cover.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Electrical and electronic engineering -- Energy science and environmental engineering -- Materials science and materials processing.
Sommario/riassunto	The 2016 International Conference on Materials Science, Energy Technology and Environmental Engineering (MSETEE 2016) took place May 28-29, 2016 in Zhuhai City, China. MSETEE 2016 brought together academics and industrial experts in the field of materials science, energy technology and environmental engineering. The primary goal of the conference was to promote research and developmental activities in these research areas and to promote scientific information interchange between researchers, developers, engineers, students, and practitioners working around the world. The conference will be held every year

serving as platform for researchers to share views and experience in materials science, energy technology and environmental engineering and related areas.
