Sommario/riassunto	This book aims to engage with contemporary security discourses from a critical perspective. It argues that rather than being a radical, analytical outlook, much critical security theory fails to fulfil its promise to pose a challenge to contemporary power relations. In general, 'critical security' theories and dialogues are understood to be progressive theoretical frameworks that offer a trenchant evaluation and analysis of contemporary international and national security policy. Tara

Sommario/riassunto	<p>The New York Times Bestseller from the beloved author of Bird by Bird and Traveling Mercies. Mattie Ryder is marvelously neurotic, well-intentioned, funny, religious, sarcastic, tender, angry, and broke. Her life at the moment is a wreck: her marriage has failed, her mother is failing, her house is rotting, her waist is expanding, her children are misbehaving, and she has a crush on a married man. Then she finds a small rubber blue shoenoticing more than a gumball trinketleft behind by her father. For Mattie, it becomes a talismana chance to recognize the past for what it was, to see the future as she always hoped it could be, and to finally understand her family, herself, and the ever-unfolding mystery of her sweet, sad, and sometimes surprising life.</p>
