Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Frontmatter -- Contents -- Preface -- Historical development of flooring -- Flooring as an architectural design element -- Sustainability of flooring -- Flooring in renovation and modernisation -- Examples of projects -- Appendix
Sommario/riassunto	The surfaces and composition of flooring make a decisive contribution to the perceived atmosphere, quality and appreciation of rooms. At the same time, flooring must be capable of bearing the enormous loads expected of it. Volume 1 of the publication should aid in the construction and the design of flooring. In addition to a fundamental theoretical basis, it offers decision-making tips and background information on various types of flooring and materials as well as how to plan proper structural connections and transitions. Volume 2 focusses on historical developments, with a particular emphasis on flooring as an architectural design element, sustainability concerns and issues often faced during renovations/modernisation. Corresponding case studies of successfully completed projects can serve as inspiration for the reader's own projects.

Sommario/riassunto	The second edition of this widely acclaimed book takes as its main theme the question of how states and societies pursue freedom from threat in an environment in which competitive relations are inescapable across the political, economic, military, societal and environmental landscapes. Throughout, attention is placed on the interplay of threats and vulnerabilities, the policy consequences of overemphasising one or the other, and the existence of contradictions within and between ideas about security. Barry Buzan argues that the concept of security is a versatile, penetrating and useful way
