

1. Record Nr.	UNINA9910163015403321
Titolo	Itch -- management in clinical practice // volume editors, Jacek C. Szepietowski, Elke Weisshaar
Pubbl/distr/stampa	Basel, Switzerland : , : Karger, , 2016 ©2016
ISBN	3-318-05889-0
Descrizione fisica	1 online resource (218 pages) : illustrations (some color), tables
Collana	Current Problems in Dermatology, , 1662-2944 ; ; Volume 50
Disciplina	616.856
Soggetti	Itching - Diagnosis Itching - Treatment
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	"28 figures, 26 in color, and 36 tables, 2016."
Nota di bibliografia	Includes bibliographical references at the end of each chapters and indexes.
Sommario/riassunto	Albeit a very common symptom in dermatology, internal medicine, psychosomatics, neurology, and even oncology, itching was under-researched up until 15 years ago. Since then, the clinical aspects of acute and chronic itch have been examined extensively. As a result, some books on the topic have become available. Whereas most publications focus on experimental aspects and diagnostics, this volume of the series 'Current Problems in Dermatology' provides a comprehensive overview regarding the management of chronic itch. Select authors consider interdisciplinary aspects as well as age, body region, and specific diseases as they present a great variety of available treatments. All physicians with patients suffering from itch – especially dermatologists, general practitioners, gerontologists, nephrologists, hepatologists, neurologists, and palliative care doctors – will find this publication to be an essential source of information.
